Technician – Computer Applications Technician

Pega System Architect
Professional Certification

Work Experience

Frontend / Drupal Developer

360training | Feb 2025 – Feb 2026 | Remote

- Developed and maintained enterprise web applications using Drupal 9/10.
- Customized reusable Drupal themes, templates, and frontend components using Twig, SCSS, and JavaScript.
- Supported a 12-site Drupal multisite architecture with shared content structures and reusable sliders.
- Investigated and resolved frontend and Drupal issues across development and production environments.
- Managed Drupal configuration, content structures, roles, permissions, Composer dependencies, and Drush workflows.
- Participated in the Drupal 9-to-10 migration and transition from IIS to DDEV/Docker.
- Contributed to React, Next.js, JavaScript, and TypeScript development within a Headless CMS architecture.
- Worked with developers, designers, and QA in Agile/Scrum teams and bi-weekly production releases.

Software Developer

Centauro Solutions | Nov 2022 – Jan 2025

- Built a scalable e-commerce platform using React, Next.js, GraphQL, and Strapi.
- Developed reusable frontend components and modern UI architectures.
- Implemented dynamic content management using Strapi Headless CMS.
- Integrated authentication, authorization, external delivery services, and secure payment-related services.
- Consumed, tested, and debugged APIs using Postman and supported cloud infrastructure with Amazon EC2 and S3.
- Collaborated with development teams using Jira, Agile, and Scrum methodologies.
